## Are Ready To Call Emergency UN Session

### MALIK VETO MAY FORCE SUCH ACTION

By FRANCES W. CARPENTER

LAKE SUCCESS, Aug. 7.—(AP)—

Trygve Lie said today the UN general assembly could meet on 24 hours notice in case of an emergency such as a new aggression.

The secretary general told a weekly news conference he would not hesitate to call the 59-nation assembly at such time.

He said the present rules provide for a 14-day period of notice to the assembly members, but that he believed he had the authority to set aside the rules in an emergency.

Some delegates have suggested the assembly meet in special session if the Soviet Union ties up the security council by using its veto powers.

Soviet Deputy Foreign Minister Jakob A. Malik, president of the council this month, threatened last week to use the veto if the council refused to invite the Communist North Koreans to take part in debate on the Korean war. He cannot use the veto, however, on military decisions already taken.

Earlier, Lie said a bold and enlightened act of statesmanship is needed to resume negotiations on world problems and to halt further deterioration toward a third world war.

He gave these views in his 142-page annual report to the assembly which meets in regular session at Flushing Meadows, New York City, Sept. 19.

In the report, written July 12, Lie said there was no way of forestalling the outcome of the war in Korea. He said the breach of peace in Korea interrupted his efforts to get high-level officials

### Four Of Truman Appointees Face Senate Opposition

By JACK BELL

WASHINGTON, Aug. 7.—(AP)—

Four presidential appointments face possible rejection by the senate this week in a well-defined rebellion against President Truman.

Three of the four nominations are opposed by Democrats. All four were given a thumbs-down sign by senate committees.

In each instance, the president has said he is going down the line with his nominee.

Interest centers on the fight between Byrd and Robertson, Virginia Democrats, are making on the president's choice of Martin A. Hutchinson, Richmond attorney, as a member of the Federal Trade Commission to fill out an unexpired term ending in 1955.

Hutchinson ran against Byrd for the senatorial nomination in 1946 and is generally recognized as one of the leaders of the anti-Byrd factions in Virginia.

Byrd and Robertson have contended that it is not justified for the \$15,000 a year job. It's apparent, too, that they don't intend

### First Sanitary School Sessions Slated Tuesday

First sessions of the fly-mosquito-refuse control school announced for Corsicana Tuesday and Wednesday will start at 1 p. m. Tuesday in George's Blue Room. The school is being sponsored by the Corsicana-Navarro Health Unit and the Texas Department of Health.

Dr. H. Nelson, community sanitation consultant for the state department, will be the school director and Miss Loretta Gaillard, sanitarian for the local health unit, will be the discussion leader.

Mayor Hubert T. Braselton will deliver the address of welcome and Dr. Will Miller, acting director of the health unit, will deliver the first lecture on "Human Diseases Transmitted by Flies." A film on the life cycle of flies will be shown.

Dr. Miller and Charles Neighbors, health unit sanitarian, will present lectures on mosquitoes, rodent-borne diseases and control measures. Two films on these subjects will be shown and insecticide equipment will be demonstrated.

Wednesday's topics include lectures, films and demonstrations on how to clean and keep a city clean and sanitary land fill.

A barbecue luncheon will be served at the city hall at noon. Representatives are expected to attend from Hillsboro, Hubbard, Itasca, Corsicana, Kerens, Groesbeck, Mexia, Teague and Palestine.

### 50 Additional Registrants Are Due Exams Soon

One hundred Navarro county draft registrants are scheduled to be sent to Dallas for military examinations during August, according to Mrs. J. Preston Welch, secretary of the Navarro County Selective Service Board.

The latest request for 50 registrants was received Monday and this group will report at Dallas August 31.

A group of 20 will take medical examinations at the army's induction center at Love Field, Thursday, Aug. 10. Another group of 30 will be sent Aug. 17.

The Thursday group has been ordered to assemble at the draft office, 110 East Collin street, Corsicana, at 6:30 a. m. They will travel to Dallas in a chartered bus which will leave at 7 a. m.

### Marines Call All Reservists

WASHINGTON, Aug. 7.—(AP)—

The Marine Corps announced today it will mobilize all of its 80,000 volunteer reservists.

A Marine spokesman said the initial call is going out to approximately 50,000 officers and men who report for active duty between Aug. 15 and Oct. 31.

The Marine Corps said that it also is calling up additional organized units of its air reserve. Some air reserve units were summoned to active duty about three weeks ago.

The corps already has called to active duty all its organized ground reserve units.

A Marine spokesman said no date has been set for the call to approximately 30,000 volunteer reservists who will not be included in the first summons.

### Hoarding Irks Fighting Men—GI's In Battle Lines Expect Long Fight In Korea, Mrs. Waskom Says

By DON MORRISSEY

Daily Sun Staff

American military men, particularly the GI's who are carrying the brunt of the battle in Korea, are looking for a long-drawn out engagement. Also, these same GI's are very disgusted with the hoarding practices being followed in the United States. Such was the information advanced today by Mrs. George E. Waskom, who returned to the States from Japan but a short time ago.

Mrs. Waskom's husband is a supply sergeant with headquarters company of the First Cavalry division. That division has been in Korea since July 17, 18 days after they were alerted for combat duty. He's been in the army for 10 years.

Mrs. Waskom had been in Japan but a few days when her husband's outfit was alerted. She arrived in Tokyo only one month and four days before she was aboard a Pan-American airliner and on her way back to the States.

## Senators Near Agreement On Controls

### Debate Slated Wednesday On New Measure

WASHINGTON, Aug. 7.—(AP)—

Senate banking committee members today predicted completion by nightfall of a home front mobilization bill giving President Truman a free hand to invoke wage-price rationing controls.

The committee worked for three and a half hours behind closed doors. When the group recessed for lunch, Chairman Maybank (D-SC) and Senator Sparkman (D-Ala.) reported considerable progress.

"We are going to stay at it, even tonight if necessary, until we have finished the bill," Maybank said.

The senate tentatively plans to start debating the bill Wednesday. Last Friday the committee approved the general principle of letting Truman put wage-price controls and rationing into effect. It and when he saw fit. That is the sort of plan the president has said he would accept.

Today, Sparkman said, the committee buckled down to the job of actually writing a bill.

The sections tentatively approved at the committee's first session today provide, Sparkman said, for: Encouragement of voluntary action by business, labor, agriculture and consumers designed to keep the wage, price and supply situations in hand without mandatory controls.

Selective use of wage and price controls in the case of specific commodities—for example, meat or lumber. The committee made no final decision as to whether or price controls in those cases would be only at pre-retail levels, or would include the retail level.

### Louisiana Solons Rule Out Vote On New Constitution

BATON ROUGE, Aug. 7.—(AP)—

The Louisiana house rejected today the proposed constitution, approving all action of the proposed constitutional convention then passed the administration bill revising the constitution.

The administration bill, backed by Gov. Earl Long, was passed 71 to 24 after three hours of debate and sent to the senate.

It revises previous legislation setting up the proposed constitutional convention, provides for 149 delegates, with 100 elected by the people and 15 appointed by the governor; provides for alternates, and requires that any convention move to extend terms of state officials be subject to popular ratification.

Gov. Earl Long walked in as debate raged.

The special session was called primarily for consideration of revisions in the constitutional convention setup.

The red-hot issue of whether the voters should have the final decision on any proposed new constitution was injected immediately after Rep. John McKeithen, one of hand and machine guns had brought the bill for final passage in the house.

The administration bill provides for 149 delegates, with 100 of them elected by the people. It gives the convention the power to make any changes it desires without submitting them to the people except any move to extend terms of state officials.

## Harmony Marks Democrat Meet

By MAC ROY RASOR

AUSTIN, Aug. 7.—(AP)—Governor Allan Shivers today told party leaders there is room enough in the Texas Democratic party for "a lot of fights" and for all fighters, to stay within the party.

The governor, whose nomination as the party's nominee for a term of his own certified earlier in the morning by the state Democratic executive committee, told the committee he had heard reports of brewing fights.

"There is no reason why we can't have the fights within the party and still have a better and more energetic party in Texas," he said. "I don't want to control the Democratic party in Texas for the purpose of doing anything with it but I don't want anyone else to control it to do anything to me."

"I would like for us all the work together and I think we can," the committee immediately adopted a resolution by unanimous vote pledging the governor full support and co-operation.

No fight developed at today's committee meeting which lasted less than an hour. The committee's primary purpose was to certify candidates for the August 26 run-off primary.

The committee also paid tribute, by resolution, to its late members, Mrs. Marion Storm of Austin, and Mrs. A. Caswell Ellis, close friend of Mrs. Storm, to fill the vacancy.

Thirty-five members were present, with proxies held for the other 27.

Clyde Davis, Jr., Dallas, defeated candidate for lieutenant governor, filed a protest concerning petitions placing Pierce

### Five Criminally Insane Patients Remain At Large

CHATTANOOCHEE, Fla., Aug. 7.—

Two of eight fugitives from the criminal insane ward of the State hospital here were recaptured without resistance today.

Five of the escaped inmates, all considered dangerous, remained at large. One had been caught shortly after the break of day.

Albany, Ga., police picked up one of the men on a downtown street this morning when a resident spotted him, called in pajamas and reading a newspaper. The man gave his name as J. P. West.

The other man caught today was identified by hospital authorities as Charles Paul James. He was found asleep on the ground about two miles northwest of the hospital.

The eight prisoners, all wearing pajamas, escaped from the hospital at 2:30 a. m. Sunday. Five fled in a station wagon, two on foot. The other man was captured within two hours.

### 17 Airmen Die In Blasts After Bomber Crashes

FAIRFIELD-SUISUN, Cal., Aug. 7.—

Less than 60 seconds spelled death for 17 air force men as a crippled B-29 crashed and exploded. Both onboard engines failed as the bomb-laden superfort took off for a long training flight Saturday night.

The pilot tried desperately to return to the runway. But a wing cracked. The bomber belly-landed. Minutes later its gasoline and demolition bombs exploded.

A witness said the pilot could have landed safely in less than one minute more. The 17 known dead included 10 of the 20 men aboard.

Two others were injured and 50 or more persons were injured, some seriously. Many of the injured were air force personnel and their families, living in a trailer camp near the crash site.

"Like a giant had stepped on them," a witness related.

Among the dead was Brig. Gen. Robert F. Travis, 45, much-decorated commander of the base, leader of the Ninth Heavy Bomber Wing here and hero of World War II. He was riding behind the pilot.

Both the plane commander and the pilot were among eight of the 20 men aboard who escaped alive. Seventeen bodies have been recovered. The two missing men were crew members.

### Delegation Fight Facing Texas GOP Committee Meet

GALVESTON, Aug. 7.—(AP)—

The Republican state executive committee met today and plunged immediately into a contest over seating a Galveston delegation.

Next door the young Republicans called in two Galveston policemen when several hundred gathered for their organization meet.

"We asked them to stand by just in case," said Thorp Andrews, Jr., of Fort Worth, chairman of the Young Republicans Federation.

He did not say why.

Rival delegations from San Antonio to the young group were present, but the question of their credentials did not come up this morning.

The contest over the Galveston delegation was expected to be lengthy. Malcolm McCorquodale, Houston lawyer and an active Republican, presented the case of the Galveston delegation, appointed at a rump session of the county convention. One of his witnesses, T. E. Workman, 27, of Lamarque, said a policeman, with a gun at his hip barred several precinct delegations at the door of the county convention.

Of the 62 members of the executive committee, 34 were present and 24 represented by proxy. Four were absent and not represented. Chairman Henry Zweifel of Fort Worth introduced Col. R. B. Creager of Brownsville, National GOP Committeeman from Texas, and Creager received a standing ovation.

### Strikes Causing Serious Effect On Glass Output

SYRACUSE, N. Y., Aug. 7.—(AP)—

A federal mediator reports that strikes at soda ash plants here and in three other cities are having a "serious" effect on the nation's glass production.

James J. Carroll of the U. S. Conciliation Service says negotiations here between the Solvay Process division of Allied Chemical & Dye Corp., and the United Mine Workers, Ind., appear to be "the big bottleneck" in settlement of the wage and pension disputes.

A Solvay Process official estimated that 25 per cent of the nation's glass furnaces had shut down because of a shortage of soda ash, used in the manufacture of glass.

The 55-day-old strike has idled 3,000 workers at Solvay's Syracuse plant. Another 1,500 are out as the result of strikes at the firm's plant in Baton Rouge, La., and Detroit.

Painesville, Ohio, the U. S. struck July 21 against the diamond Alkali Company, which employs about 3,000.

The union has not disclosed its demands and wage scales have not been made public.

### Lack of Manpower, Transportation Precludes Invasions—All Available Troops Needed To Hold Defense Lines

By ELTON C. FAY

WASHINGTON, Aug. 7.—(AP)—Lack of manpower and, to some degree, transportation apparently precludes any early large-scale effort to upset the Korean Red army by amphibious or airborne invasion behind the lines.

Nevertheless, military men here are not disposed to rule out the possibility that the time will come for use in Korea of the sea-air invasion technique that helped win World War II campaigns in both Europe and the Pacific Islands.

Nor does it mean there won't be more forays by small groups landing from ships for demolition and scouting purposes along the enemy-held coastlines of Korea. The departure from American West coast ports of units of the 1st Marine division led to a wide-

### France Requests Stronger Troop Units In Europe

PARIS, Aug. 7.—(AP)—France

pledged herself to a three-year rearmament program today to help guard against Communist aggression and called on Britain and the United States to station "a sufficient number of divisions" in continental Europe.

Thus she joined the vanguard of European countries, who have announced their determination to step up spending for defense with the aid of American arms and money.

The government announcement said France will spend the equivalent of \$5,710,000,000 on rearmament. It promised an immediate increase in military spending from 420,000,000,000 francs (\$1,200,000,000) to 500,000,000,000 francs (\$1,428,000,000) next year. This would divert an estimated 8.2 per cent of the national income to defense costs, and the three-year program is expected to take at least 10 per cent of the total income.

Britain's stepped up program will cost that much, too.

The statement said the program will give the French army 15 new divisions. It also proposed a unified command of all armies of the western world now deployed against possible Communist attack, and suggested a pool of finances and resources to make it run efficient.

France was the fourth to reply to President Truman's recent request to Atlantic Pact nations as to what they would do about rearmament in view of the present world situation.

Britain, Denmark, and Norway have made similar announcements. The British are ready to spend \$920,000,000 on defense over the next three years with American help.

Denmark plans to spend 400,000,000 kroner (about \$57,100,000) in the next two years.

Norway today proposed to spend the equivalent of \$35,125,000 more for defense. Her 1950 military budget equals some \$1,200,000,000.

### Filipinos Offer Fully-Equipped Combat Infantry

MANILA, Aug. 7.—(AP)—The

Philippines government offered today to send immediately to Korea a fully trained, full-equipped regiment of 5,000 combat infantry.

This marked a sharp change in policy.

President Quirino announced the offer to General MacArthur shortly after the Philippines congress had approved dispatching the troops at its own expense.

If additional troops are needed, Quirino said, the government will begin training volunteers. However, he said, outside money would be needed to support such a program.

Quirino said the 5,000 troops could serve wherever they might be needed. That was in answer to a question on whether the troops might aid in the defense of Formosa.

Quirino ordered all privately owned military equipment impounded.

spread expectation on the home front that a spectacular landing was imminent. The "marines" reputation as amphibious landing specialists presumably gave rise to the expectation. Instead, the brigade landed quietly at a South Korean port, then moved to the front to take up positions with troops already in battle.

Whatever the military or psychological value of putting a big force behind the enemy now—to divert some of his attack force to beach-head defenses—the odds are weighted heavily against it.

Every man with a gun in the Far East zone seems to be needed badly to hold the defense line. There are no troops to spare or withdraw from the front.

Because the Pacific war was waged almost entirely by a series of amphibious landings, the

### Casualty Total In Korean Battle Listed At 2,616

WASHINGTON, Aug. 7.—(AP)—

The Army announced today that its Korean war casualties reported to families and released for publication through August 6 totaled 2,616. There are additional casualty lists, awaiting release after notification of families.

Most of the 6,000 new soldiers were picked up in the Seoul area of the South Korean republic. He was impressed into the Red army five days after the fall of Seoul, the Red-captured capital. About 5,000 others in his division were forced into the Communist army.

The division's troops marched for 24 hours and then were ordered to beach-head defenses—the odds are weighted heavily against it.

The division had only three pieces of artillery and one Jeep. Lim said it had one light machinegun to a squad.

Lim's platoon and squad leaders were killed Saturday in battle with South Korean forces. He and others in his outfit did not know how to fight. He hid until the Reds retreated and then surrendered.

### North Koreans Use Raw Recruits To Bolster Drive

By WILLIAM SHINN

U. S. EIGHTH ARMY HEADQUARTERS IN KOREA, Aug. 7.—(AP)—Lim Kwang Won, a war prisoner, said today the North Korean First Division crossed the Nakdong river near Hamchang and went into action with 6,000 green troops and 3,000 veterans.

The 20-year-old said:

### Senators Urge Broad Changes In Intelligence Unit

WASHINGTON, Aug. 7.—(AP)—

Two senators who cited evidence of what they called faulty military intelligence said today there may be a need for some broad changes in the intelligence setup.

Senator Bridges (R-NH) told a reporter he thinks all the available information shows that this country was caught napping by the Communist invasion of South Korea. He said he will suggest that a senate armed services investigating subcommittee of which he is a member look into intelligence operations with a view to suggesting changes.

Senator Byrd (D-Va.), like Bridges a member of the full armed services committee, said events of the last few weeks have indicated to him that some drastic revisions in military espionage operations ought to be undertaken.

"The whole intelligence set up probably ought to be reorganized on a war basis," he said in a separate interview.

Bridges said he hopes intelligence reports from other parts of the world are evaluated more ef-

### U. S. TROOPS CRASH INTO CRACK REDS

Invaders Reported Suffering Heaviest Casualties Of War

By RUSSELL BRINES

TOKYO, Tuesday, Aug. 8.—(AP)—American marines and doughboys blasted forward an estimated four miles on the southernmost front in Korea Monday in their first offensive of the six-week-old war.

The three-pronged American attack which began Monday was continuing today in a slow difficult battle against a withering barrage of North Korean artillery and mortar fire.

A bottleneck that blocked the marines' 45-ton Pershing tanks at the outset early Monday just west of Chindong apparently had been broken.

Official sources at the front told AP Correspondent Tom Lambert Monday night that earlier difficulties in this area now had been smoothed out and the American attack was proceeding.

The blockade had occurred when Red artillery knocked out the lead tank, blocking the only road.

He said both the Marines' reinforced Fifth Marine regiment and the Army's Fifth Regimental Combat Team from Hawaii had scored four-mile advances at unspecified places.

A battalion of the Fifth Regimental Combat Team went out off Lambert said, but Army and Marine elements were being sent to relieve it. They were supplied

### Heaviest Strike Of Korean War Made By B-29's

TOKYO, Aug. 7.—(AP)—B-29s plastered Pyongyang and Wonsan with rockets and bombs today in their heaviest strike of the Korean war.

The Far East Air Forces said B-29s that were in the United States only days ago joined in the strike. The planes dropped 460 tons of bombs on rail yards at Pyongyang, the North Korean capital "with excellent results."

They encountered some flak, a Korean war pilot said, but the B-29s struck the oil refinery at Wonsan, first major target of the bomber command when its planes roared over North Korea.

**HIGHER TAXES COMING**

There are many uncertainties about the incident in Korea but its effect on the taxes of Americans is not one of them. The taxes paid by both individuals and corporations will go up, probably beginning with some part of the taxes for the current year, and will remain higher for several years. This is inescapable, as the costs of military operations already have been increased greatly and will be higher for some time after the Korea incident and any complications are finished.

The indications are that the tax boost will be big enough to hurt. It should be felt by every one with enough sharpness to be a reminder that no military operation is carried out except at a cost. The cost of a battle is almost always higher than the cost of preventing it. We can easily see now that it would have been cheaper to fortify South Korea against Red invasion, and that it would have been cheaper still to prevent the division of Korea in the beginning, by forcing Russia to permit the United Nations to set up a government for the whole country. Instead, we weakly permitted Russia to defy the United Nations then, and there inevitably followed a time when we dared not permit it any longer. All this is hindsight, which has been wrongly called better than foresight.

Foresight now may enable us to avoid still larger military efforts in the future. It has not yet become completely clear what we must do to prevent a third world war at some time, but what is learned from the Korea incident may help to point the way. Whatever the cost of prevention, it would certainly be less than the cost of another war.

**READING AND VOTING**

Should persons who are not literate enough to read their ballots be allowed to vote? The question has arisen in Ohio under unusual circumstances. The Massachusetts or office type ballot was adopted by referendum this year, and it is to be used for the first time in November. Previously a voter who could not read was able to vote a party ticket of his choice simply by marking an "X" in the circle under the party emblem. Now the party emblem will be missing, and the voter will have to be able to read the words to know what he is doing. State officials are divided as to whether the voter who can't read is entitled to have help in the voting booth, like a voter who is physically unable to mark his own ballot.

It might be supposed that the ability to read is a standard requisite to voting. Yet only thirteen states have literacy tests for voters. In some cases the literacy test has been attacked as a device to deny the ballot to Negroes. The states which have literacy tests are widely scattered; the first was Connecticut in 1855.

In this day there is no need for any voter to be unable to pass a reasonable literacy test. It certainly is open to question whether a person who cannot do that is competent to vote intelligently. It is true that the Constitution does not make any requirement for intelligent voting. Evidence of ability to read seems to be little enough to require at the ballot box.

Soft music is supposed to stir cows to give more milk, soothe patients on the operating table and perform similar feats. Does it still work when accompanied by witticisms of a disk jockey?

**UNITED NATIONS FORCE**

It appears that a genuine United Nations fighting force will be developed in Korea if the fighting there continues long enough for the mechanical processes of gathering the force together. It further appears that the fighting is quite likely to continue that long. The number of nations which have promised to send troops is large enough to give the forces in Korea, when the promised troops have been delivered, the character of an actual United Nations police army.

The experience in Korea already has made it abundantly clear that the UN is not an effective organization without armed force at its disposal. Its cease fire order in Korea was sheer waste of breath. It was plain from the outset that the guns could be silenced only by the weight of superior force. It also has become obvious that the aggressor force has gained a tremendous advantage by making use of the time needed to assemble police forces. Before United Nations strength can be ready in Korea the aggressors probably will be in physical possession of virtually all of their objectives, and the UN task will be not simply to enforce a cease fire, as it would have been at the beginning, but to restore the situation which existed before the fighting began. The second job is much harder than the first.

In both the immediate and the long range future, these conditions of Korea are likely to be repeated whenever the similar need for UN police action recurs. When there is a real fighting threat to world peace, superior armed forces will be needed to quell it. Every day and hour of delay in getting the police force into action will increase the difficulties of its job. From the Korean experience, then, all of the United Nations ought to learn that the international body needs force, and needs to have it instantly ready for employment.

**FARMERS AND TAXES**

Nowadays there are farmers and farmers. There is, for example, the homespun type for whom that occupation consists of chores from dawn to dark, and there is the effete gentleman who earns his living in town and strides about his acres in riding breeches, casting a cursory eye over the agricultural processes.

The latter type is the present target of government tax collectors, who fear that his idea of his losses may be slightly exaggerated. If his farm is not operated in a way in which a profit can be realized, if his receipts fall too far below his itemized expenses, or if his position as a loser in the game seems to be more or less permanent, this so-called farmer is in line for readjustment.

We suspect that if this investigation is rigorously carried out the ranks of gentlemen farmers may be radically thinned. A farm can be a very expensive toy. The land will yield its riches only to those who understand it and who take it seriously. It allies itself with the tax collector to change the attitude of the absentee farmer.

**Frost, Emhouse And Richland Win Playoff Games**

Frost, Richland and Emhouse (today) and Sunday in playoff games in the Navarro-Juarez junior amateur baseball league at local parks.

Jerry Scott's no-hit pitching performance for Frost blanked Wortham in the first game of the afternoon at Magnolia Park. Emhouse errors helped the Frost cause.

The second game at that site saw Emhouse whip Corsicana, 17-3, with a 10-run surge in the final inning leading to the big majority for the Emhouse crew. Gillen went the route for the winners, and Emhouse pitched for Corsicana.

At Mill Park, Richland won a forfeit from Pickett in a game postponed from last week. Pickett could not field a full team for the replay Sunday and Richland took the win.

The remainder of the playoff games are slated at Frost. In the semifinals next Sunday Richland meets Frost in the first game, and Emhouse tangles with Corsicana in the second.

**Emhouse Swamps Gushers Sunday In Semipro Play**

Emhouse's 23-1 rout of the Corsicana Gushers led the scoring column in the Navarro-Juarez semipro league play.

In other games Rice edged the Corsicana Merchants, 4-3, and Corsicana took a forfeit from the Corsicana Merchants, who have disappeared.

Sunday, August 13 is the final day of league play in the regular schedule. Arrangements will be made for a playoff among the top three within the near future.

President E. S. Allen of Richland has announced.

Announcement has been made of the marriage of Miss Zula Liner of Hillsboro and Garland D. Rhoads of Corsicana at the Methodist Church in Waco.

Just returned from a wedding trip to San Antonio and Galveston, Miss Liner will be in Corsicana for a few days before going on to Colorado for the remainder of the summer. They will make their home at 315 Corsicana street, Hillsboro.

Mr. Rhoads has retired after selling the optical and jewelry business he operated here for 20 years.

**Luncheon Honors Mrs. Jack Burke**

Complimenting Mrs. Jack Burke, a recent bride, Mmes. Dan B. Hamill and W. R. Sneed entertained at the home of the latter with a beautifully appointed luncheon for 30 guests Friday.

The guests were greeted by Miss Mary Hamill.

The luncheon was decorated in deep-toned glaucous and shimmering tones. The place settings reflected the centered elegance of pink asters, carnations and angel lilies. In the background was a buffet arrangement of pink asters.

Mrs. J. Afton Burke, mother of the bridegroom, served baked ham, a molded salad was served by Mrs. T. O. Wills, mother of the bride.

Guests helped themselves to asparagus, corn casserole and iced tea. The dessert course included cake and ice cream with crushed fruit.

The luncheon was a success. Mrs. Burke's guests were most appreciative.

Gov. Long told the house judiciary committee Sunday, July 30, that he approved the administration bill.

"With all respects to our people—and they are as good as dead in the world—unfortunately there is much ignorance. We are doing everything we can to improve this. But the lawyers themselves don't know what a 'don't' means."

"I don't think the people of Louisiana are ignorant if they are given the right to elect our officials, and to pass on constitutional amendments, they ought to be given the right to pass on any new constitution," Rep. Welborn Sack said.

MRS. JIM WILLIAMS PATTERSON

**MISS WYNELL GILLEN AND JIM WILLIAMS PATTERSON WED AT BLOOMING GROVE**

Miss Wynell GilLEN, daughter of Mr. and Mrs. G. W. GilLEN, became the bride of Jim Williams Patterson, son of Mr. and Mrs. G. A. Patterson, in a double ring ceremony Friday evening at the Central Baptist Church of Blooming Grove.

The Rev. A. L. Chumley was assisted as officiant by the Rev. G. C. Gooch.

Mrs. Nolan Brown of Blooming Grove attended her sister as matron of honor. Bridesmaids were Miss Ruth Hutcherson of Mexia, Miss Elvira Brazill of Wells, Miss Joyce Hightower and Mrs. David Boyles, both of Houston.

Little Gay Lou GilLEN of Hubbard, who sang the bride's flower girl, Ring bearers were Bill GilLEN and Bobby Brown, nephews of the bride, both of Blooming Grove.

G. W. Patterson of Blooming Grove served as his brother's best man. Ushers were Charles GilLEN and Murry Holdt, both of Blooming Grove. David Port of Dallas and Bill Stead of Wells.

The altar where the couple exchanged vows was embowered in basket arrangements of white chrysanthemums and gladioli, with seven-branched candelabra holding tall white tapers.

Before the ceremony Mrs. Miller sang "I Love Thee" by Grieg and later "The Lord's Prayer" by Mallotte. Mrs. Elvira Brazill accompanied at the organ and played the traditional marches.

The bride, who entered with her father, wore a gown of white tulle, imported Chantilly lace and nylon marquisette. The elongated bodice of lace over satin had a deep off-the-shoulder yoke of flesh illusion tulle. The long sleeves tapered to points over the bride's hands. The bouffant double-tiered marquisette skirt, worn over hoops, cascaded

from petal points of lace to a formal length train. Her fingertip veil of imported illusion was caught to a yoke of the same material outlined with dainty orange blossoms and tied in misty tiers. She carried an arrangement of white valley lilies and white orchids atop her Bible.

The bride's table was covered with a white satin cloth, caught by a tulle bouquet of yellow daisies and yellow lilies. Yellow gladioli, placed at the corners, Yellow gladioli, and carried a nosegay of yellow gladioli.

The home of the bride's parents provided setting for the wedding reception.

Need for negotiations, however, will be greater than ever "when United Nations action has succeeded in restoring peace to Korea," he wrote.

"I do not believe that member states adhering to the charter can ever accept the doctrine of irreconcilable and irrevocable division of the world into warring camps, not least of preventing a third world war by peaceful settlements based on the principles of the charter."

"But I also believe it will take nothing less than a bold and enlightened policy of statesmanship to bring about a resumption of negotiations and to halt further deterioration towards another world war."

The report termed a successful conclusion to the UN military action in Korea "first priority" for member nations but added:

"This does not mean, however, that the UN should abandon efforts for peace by negotiation, conciliation and mediation."

Lie's report was distributed among the 59 member delegations as the security council prepared for a meeting Tuesday the 8th.

The UN demand to seat Communist North Korea and Red China at the council table during debate on the Korean issue.

An American spokesman said Saturday that this would be like inviting to tea a man who has burned down your front porch.

He said the United States would oppose the Russian move.

That the UN report was made public, Lie said in a radio broadcast that the Korean crisis has brought with it the most serious danger to peace since the UN was founded in 1946.

He said North Korea and Red Chinese forces had made a well-prepared attack on the UN-backed republic of Korea, and that all member governments have a duty to bring the U. N. action in Korea to a successful conclusion.

High points in Lie's report were:

1. The best approach to a solution of outstanding problems would be a resumption of negotiations and to halt further deterioration towards another world war.

2. China's seat in the UN should be given to the government which standards of life and greater social progress.

3. With such a need for mankind to pool resources for higher standards of life and greater social progress, it is tragic for political strife to destroy the groundwork laid by the UN in economic and social fields.

4. Every reasonable step should be taken to enable all nations of the world to belong to the UN.

14 countries now are seeking admission. The Soviet Union has been refused.

5. UN specialized agencies have demonstrated potentialities for promoting peace and prosperity but these potentialities remain unrealized because of non-participation by some countries and the small amount of aid given by most participating governments.

6. The expanded UN program of technical assistance for economic development is good beginning but only a beginning. A vast program of self-help and mutual aid is needed.

7. The UN should be given the right to pass on any new constitution.

## Special Grass Judging Contest At County Fair To Feature 33 Plants

By CLYDE JOHNSON  
Daily Sun Staff

A special grass judging contest will be conducted again this year at the county fair, with Allan Bryant in charge.

Designed to create more interest in adapted grasses and legumes, the event is being sponsored by the Navarro-Hill Soil Conservation District.

Serving with Bryant on the committee are Ray Brooks and W. J. Moore.

Thirty-three grasses and legumes will be prepared for judging, and special prizes will be awarded to teams from all 4-H clubs, FFA chapters and Veteran Vocational Agricultural classes.

The fair opens September 26. Real purpose of the fair is to encourage farmers to improve their methods of production, and to spread real farm knowledge from one community to another; and to teach the farmers how to judge and grow quality products.

Navarro county's wheat allotment for 1951 will be 185 acres, it was announced Monday. This is 89 acres more than last year's allotment.

**PRICES JUMP:** National Farm product prices jumped 6.5 per cent between mid-June and mid-July—mostly because of the Korean war situation. Texas farmers received five per cent more for all farm commodities during that time. Meanwhile, supplies of food and fuel are expected to continue at about the same level as in the past two years, and officials say speculative buying and price increases are not warranted.

## Oil Industry Cites Manpower, Material Needs

FRENCH LICK, Ind., Aug. 7.—The Interstate Oil Compact Commission has pledged full support to the government in any emergency but cited its need for material and manpower.

A resolution adopted at the final session of the commission's three-day session here said an accelerated program of drilling operations will be required to increase the present oil reserve capacity.

The resolution then cited to federal and military authorities "the imperative need for adequate supplies, particularly steel products and necessary manpower to conduct these essential operations."

A compilation of production figures supplied by state conservation departments showed that the present daily output of 5,440,000 barrels can be increased to 6,549,487 barrels without harm to wells.

Nine states reported oil production increases were possible. They are Texas, Louisiana, Oklahoma, Kansas, New Mexico, Colorado, Mississippi and Alabama.

Twelve other states indicated that with present facilities they are producing to capacity. These states are Arkansas, Florida, Indiana, Illinois, Kentucky, Michigan, Montana, New York, Ohio, Tennessee, West Virginia and Georgia.

## Registration Of Every Protestant Woman Is Urged

By WILLIAM C. BARNARD  
Associated Press Staff

A thrift program among students of public schools at Irving, Tex., is attracting wide attention. The kiddies run errands, wash dishes, make beds, do yard work and clean houses—to buy U. S. Savings Stamps which are peddled at school.

They've bought so many stamps, the U. S. treasury sent a couple of representatives to the North Texas town to see what was going on.

**Plan Outlined**

Here's how the Texas Outlook, a magazine for teachers, outlined the Irving situation:

Before the thrift program was inaugurated, it was discussed thoroughly by Irving faculty groups, the Parent-Teacher Association and the Room Mothers Club. These organizations promised enthusiastic support.

Each child is encouraged to save a regular amount each week. If little Johnny comes up with an unusually big amount in any week, his teacher is instructed not to give him special notice.

A committee of two students from each home-room sells the savings stamps. During a morning home-room period, the stamps are placed in the teacher's desk until just before the final dismissal bell, at that time, the committee distributes stamps to the purchasers.

**No Stamps Lost**

Pupils keep their saving booklets at home and are taught to place the stamps in them immediately on their arrival from school. Here's something: Not a single stamp has been reported lost.

Purposes of the program include: "To teach that one must work and earn for provisions necessary in life; to encourage regularity in savings; to teach honesty of correct reporting and accounting; to encourage pupils to save with a purpose—a trip, a scout camp or even a college education; to teach tolerance of others in respect to amounts saved."

Some children, who formerly did odd-jobs at home for free, happily report that their mothers and dads are now paying off.

spent from Wednesday until Sunday in Amarillo with their sister. They also visited in Abilene with Mr. and Mrs. Merle Burleson and children.

Not one single Protestant church woman should be overlooked in the Ecumenical Register project of the United Council of Church Women, believe leaders who are working for the enrollment of one million Protestant women.

Their names will be listed on a national scroll to be offered at the biennial assembly of the UCCW in Cincinnati, Ohio, November 13-16. Their gifts of one dollar each as they register will be represented in a service of dedication at the ceremony, testifying to growing Christian unity.

Those who are registering have been told that future generations may look with pride on this historic scroll of the first million women who signed their names and gave such gifts to promote an ecumenical Christian fellowship across denominational and cultural lines.

**Satisfaction Provided**

UCCW leaders feel that in the present time if tension that there should be great satisfaction for the individual Protestant woman who has an equal monetary share in the oncoming of World Missions of the Church, Christian World Relations, Christian Social Relations, Schools of Missions, Leadership Training Institute and the world wide programs of the World Day of Prayer, May Fellowship Day and World Community Day together with other phases of Christian Service.

It has been reported that the Communists are organizing a campaign to enlist 500,000,000 Asian women to communize Asia. U. S. officials say that this is the most ambitious effort to recruit women for a political cause in all world history.

UCCW leaders have asked that local workers of that those of their own group, their friends and neighbors and strangers they meet, believing that even one million Protestant women working for a unified Christianity will present a mighty fortress against such movements.

The United Council of Church Women was organized in 1941 by the coming together of three organizations—the Council of Women for Home Missions, the Committee of Women's Work of the Foreign Missions Conference and the National Council of Church Women. Today there are more than 1800 local councils in the United States and Hawaii. Through the World Day of Prayer the women of America are linked with women in 90 countries around the world.

**Becomes National Unit**

This year the United Council of Church Women will become the general department of United Church Women of the National Council of Churches of Christ in the U. S. A.

At the biennial convention ten million women will be represented by the delegates present. Mrs. W. J. Faulkner, Dr. John A. Mackay, Rosa Welch, Dr. O. Frederick Noble, Dr. Toyohiko Kagawa and Dr. Clark G. Kuebler, Sun Want Ads Bring Results—Try a want ad and convert it into cash. Just phone 163.

## Primary Objective Of B&PW Clubs Is Listed By Judge

Judge Sarah T. Hughes, newly-elected president of the National Federation of Business and Professional Women, has stated that her primary objective for the federation is the same as it was in 1919 when the first convention call was issued—to promote the advancement of business and professional women. Her statement is included in the current issue of the state magazine of the organization.

She points out that the method of promoting women in different ways. "Then women had few rights and opportunities. They were not allowed to participate in government as citizens, and tradition kept them from making any contribution to the world."

Today the doors have opened wide to women. They have the right to vote and hold office and eighteen million women are gainfully employed.

Under such circumstances it is up to us if we are to become a vital force in government, in community activities and in business. We must go into the arena and participate. The game is not won by the spectator, but by the players. If we are to hold public office we must run, we must ask for appointments for which we are qualified, our influence is improving, our community and business contributions are going to the top in business will depend on us, on what effort we put into our projects and our job."

Emphasis on membership will be placed in the new magazine this year. The national convention adopted the recommendations that the National Federation conduct concentrated nationwide membership promotion effort for the biennial year. The recommendations that the potential membership has not been attained, concentrated effort be made to organize a new club in every possible place; that as a preliminary to such expansion, communities be surveyed to learn how many women work, and where and in what capacities; that clubs continue to strive for balanced membership, age-wise and occupation-wise; that membership workshops be made a part of each state convention program, or of schools of instruction, and that district directors and club membership chairman be instructed on procedure and processes.

The State B and P W Club will meet at the Texas Hotel in Fort Worth August 19-20. The finance committee will meet Saturday afternoon at 4 o'clock, the executive committee at 5 o'clock and the entire board at 6 o'clock. The entire board will reconvene Sunday morning at 9 o'clock.

## U. S. Clubwomen To Visit Europe, Study Problems

Matters of common interest, especially those having bearing on the current war situation, will be discussed when 35 leaders of the General Federation of Women's Clubs go to Europe to meet with other clubwomen.

They will take a 7-week international Co-operation tour to nine European countries.

The 27 women leaving by plane from New York August 22 will include five Texans.

They are Miss Ethel Foster of Sterling City; Mrs. W. E. Cantrell of Goldthwaite; Mrs. Florence Cantrell of Goldthwaite; Mrs. L. L. Wille of Matador.

Miss Foster, national budget chairman, and Mrs. Scott are former Texas Federation presidents. Mrs. Cantrell is secretary and Mrs. Wille is treasurer of the state organization.

Others taking the tour will sail from New York August 22. The delegation will be headed by Mrs. Hiram Cole Houghton, GFWC president. Twenty-one states, the District of Columbia and Hawaii will be represented in the tour.

Five days will be spent in London, England, where the American Women's Club will honor the visitors with a reception at its clubhouse and a luncheon will be arranged by the English Speaking Union.

Mrs. Houghton will be hostess for a luncheon at the Devonshire House, London, where the American Clubwomen will be club of officers.

The American Women's Club of Denmark will entertain with a luncheon at Rydalen, the American Embassy in Copenhagen through the courtesy of Mrs. E. E. Anderson, ambassador. The party will be September 6.

At present, the tour includes several other social projects will be visited in Amsterdam on September 8 with the Nederlandse Vrouwenclub as host. Other stops include Frankfurt, Munich, Oberammergau and other social projects will be visited in Amsterdam on September 8 with the Nederlandse Vrouwenclub as host. ## Temple Hospital Is Reorganized

TEMPLE, Tex., Aug. 5.—(P)—The Temple and White Hospital is now a non-profit medical foundation and publicly owned hospital.

As a non-profit organization, the hospital will be tax-exempt, and will be able to accept gifts and endowments which also would be tax-free. The hospital will continue, however, to pay taxes to the City of Temple.

Plans for expansion of the institution include a new physical plant here as well as expansion in research and medical and surgical service.

Dr. C. C. Scott, Jr., hospital president, said that the hospital hoped to start a building program within 12 months.

Dr. Scott said the reorganization is a step toward expansion and the huge medical institution under control of members of the medical profession rather than to have control inherited by private and non-professional persons.

Members of the board of trustees are U. S. Senator Lyndon B. Johnson, Temple First National Bank President W. Guy Draper, and J. Paul Cowley, the president and general manager of the Santa Fe Southern Lines, all of whom will serve as public representatives. The medical representatives are Dr. C. C. Scott, Jr., Dr. M. Longmire, Dr. G. V. Brindley, Dr. J. D. Stevenson, Dr. P. M. Bassel, and Dr. Raleigh R. White.

## Leadership Of Camp Fire Girls Rated Important

The Camp Fire Girls of America will take their direction and character in the future from the joint thinking and action of every volunteer and professional worker, according to Martha F. Allen, national Camp Fire director, writing for the organization's national magazine.

Pointing out the many struggles going on within the national and world environment, that for allocation of food and materials, for equal opportunities between races, Miss Allen writes:

"My first hope is that for the coming years we shall find the effectiveness of the work we do with girls. Through the Camp Fire Girls program we try to help girls develop their finest capacities; we try to help them acquire skills in getting along with each other, with their parents and other associates; we try to help them understand the problems, the dreams and aspirations of people whose social and cultural background may be different from their own; we try to create in them an interest in games, sports, music, dramatics, the outdoors and many other things which will give them interests and hobbies through their lives; we try to help them develop character, based on spiritual values."

A second hope was expressed for the continued development of financial resources necessary for local and national operations. She termed 1949 the most successful year in the history of the organization from a financial point of view. Growth in the quality of program and growth in financial resources will also bring growth in membership, she pointed out, adding that growth was now accelerating.

"It is quite reasonable to expect that in the coming years we shall be able to serve many additional thousands of girls through the Camp Fire program," she stated.

The writer expressed the belief that the Camp Fire Girls are making a real contribution to community life and to American democracy. "The thousands of volunteers serving as group leaders, sponsors, board and committee members of Camp Fire Girls have made a great contribution to American life. Many of the girls whom they trained are now ready to take their own places as volunteers in our agency. With them and the many more volunteers who would like to work with youth we shall give a vital and growing service in the years to come," the director concluded.

## Fair Committee Initiates Plans For Big Parade

Preparing to promote a far better parade than has been seen in Corsicana in several years, members of the Corsicana Agricultural and Livestock Show parade committee met Friday and outlined general plans for the opening spectacle to be held Sept. 26 at 10:30 a. m.

Discussions centered about the number of divisions to be allowed in the parade and the committee tentatively adopted plans to include the following:

Floors, pioneer displays and equipment, clown and other novelties section, juvenile section; bands, queen and her court of honor section, fair officers and other dignitaries, automobiles, farm displays and horses.

The committee voted to award cash prizes in three sections, floats, clowns and novelties and juvenile. Ribbons will be awarded to winners in the pioneer and band sections and band members will be treated to a picnic lunch. Prizes will be awarded for first, second and third places.

A new idea to be tried this year is the selection of a local queen of the fair and to have her court of honor made up of winning representatives from the communities in Navarro and surrounding counties.

It was decided to have high schools in the various sections choose their queen and all will ride in convertibles in the parade. Suggestions of a dance or dinner for the queen and her court were aired but no action was taken.

It also was voted to limit parade entries to fully decorated vehicles except in farm machinery line where each dealer would be allowed to enter one display.

It was decided to have the floats all entered in one section and not divided into groups such as social, business, fraternal, etc. Prizes in this section will be \$50 for first, \$25 for second, and \$10 for third. It was suggested the queen be judged before or after the parade.

Clown and novelties prizes will be \$10 for first, \$5 for second, and \$3 for third.

Juvenile entries will be shooting for \$5 for first, \$4 for second, and \$2 for third.

It also was suggested a traveling cup be awarded the float which wins first prize. Any entry which wins three years in a row would be allowed to retain the trophy.

Chairman Tom McElroy said he'd contact some of the business houses to see if they would supply such a trophy.

Fair Manager R. W. Knight presented a demonstration on how to decorate floats and informed the committee that float frames could be purchased or rented from the Chamber of Commerce. These can be used year after year, he explained.

Knight also explained the various ways floats can be decorated and informed the committee Mrs. Knight would assist in decorating the floats.

Committee members who attended the meeting were urged to suggest names of additional people who would be willing to work on the parade committee.

The committee expressed the hope that at least 10 bands be invited to take part in the parade.

Attending the meeting Friday were Mr. and Mrs. Knight, Mrs. Joe Bob Tokell, Mrs. Doug Williams, Mrs. A. G. Elliott, Mrs. Fernell York, Mrs. Ray Waller, Sam Werner and McElroy.

## Miss Mabry Is Shower Honoree

KERENS, Aug. 4.—(Spl.)—A miscellaneous shower Tuesday afternoon in the home of Mrs. Ben R. Cherry concluded a series of pre-nuptial festivities complimenting Miss Darrell Mabry, bride-elect of William Lee Wailes of Fort Worth.

Guests were received by Mrs. Cherry; Mrs. R. D. Mabry, mother of the bride-to-be, the honoree, and Mrs. Walter Boyd of Waco.

Mrs. Paul Jones of Kingsville was in charge of the bride's book. Pink asters and white gladioli and tube roses were used to decorate the living room, and the tea table covered with an organically cloth had as its decoration miniature bridal bouquets surrounding a mirrored plaque which rested on a cake stand and was skirted with a white net ruffle. Pink and green satin bows edged the plaque from which the pink and green cakes were served by Mrs. W. P. Ingram and Miss Joyce Copeland of Corsicana.

Mrs. J. K. Bradley of Rice and Mrs. J. W. Freeman of Waco, aunts of the bride, alternated in serving frosted punch.

Vocal and piano selections were provided by Mrs. H. A. Quate and Miss Anita Hall. Co-hostesses with Mrs. Cherry were Mesdames Jim Stevenson, W. H. Hill, H. M. Hall and Miss Ethel Immon.

Other parties honoring Miss Mabry included a morning coffee July 19 in the home of Mrs. Carroll Thompson with Mrs. John B.

## Information For Vets At School

The Officer-in-Charge of the Veterans Administration Office in Corsicana, Robert C. Reeder, has received rulings of interest to veterans planning to attend school terms next fall. These procedures were prepared following the recent enactment of Public Law 610.

Veterans who wish to make their first change from one general field of study to another (from law to engineering, for example) may do so simply by applying for a Supplemental Certificate of Eligibility from VA.

The same holds true for those who complete or discontinued GI Bill training and now want to make a first change to a different general field.

Veterans who already have changed general fields of GI Bill study and now wish to change again, should apply at their VA regional office. If it is determined that the new course is in a different general field, they will be required to undergo advisement and guidance.

If VA doesn't come to a decision whether to approve or disapprove within 45 days after the veteran's application, the new course automatically is approved. The veteran, however, must have appeared at the appointed time for advisement and guidance, and he must have cooperated in receiving this service.

One final reminder to be considered in planning GI bill training, July 25, 1951, is the cut-off date for starting GI Bill courses for all veterans discharged July 25, 1947. Those few who were discharged after July 25, 1947, have four years from their discharge date in which to begin.

The liberal change-of-course procedures authorized by Public Law 610 won't apply after the deadline for starting.

Mr. and Mrs. B. T. Delahay have returned from Ft. Worth where they visited Col. and Mrs. W. A. Delahay and family.

## IN AND OUT OF SERVICE

First Lt. Joe B. Fogg, 105 Haven Ave., Corsicana, has recently completed a mess management course at the Food Service School at Fort Sam Houston, Texas. Fogg is a member of Headquarters and Headquarters Battery, 133rd Field Artillery, National Guard, located in Corsicana.

## Elliott's Return From Western Trip

Mr. and Mrs. A. G. Elliott returned Sunday from a two weeks automobile trip through inland western states, which included a stay of several days in Salt Lake City. There they shared dinner occasions and a picnic outing with Dr. and Mrs. E. F. Waters and daughters, Elizabeth Ann, Martha and Delby, former residents of Corsicana.

The residence and clinic of Dr. Waters is on Temple Street, near the center of the Mormon capital. A highlight of Mr. and Mrs. Elliott's visit there was a barbecue with the Waters' family at a sking resort 30 miles from the city.

Stops along their route were Yellowstone National Park, Grand Teton National Park, which includes a spectacular portion of the Teton mountains, and Grand Lake in Colorado.

Among the unusual events of the trip was attendance at Central City Grand Opera House, Denver.

## First Waco Bale Brings Top Price

WACO, Aug. 4.—(P)—McLennan's first bale of 1950 cotton brought \$13.4 a pound—the highest price in history for the county.

Claud Stewart of Bosqueville received \$686.08 for the 512 pound bale, plus a \$500 bonus paid by the Waco Chamber of Commerce and the seed sold for \$65.

Stewart has brought in McLennan county's first bale for five of the last six years.
